LAWN GRASS SEED

FOR

SUNNY AREAS

SUNNY BEST BENT FORMULA

None better! It is our best mixture, offered in competition with so-called patented formulas which sell at much higher prices. Contains Bent Grass, blended with Kentucky Blue Grass and Red Top in just the right proportion to form smooth, velvety lawns. No White Clover in this mixture.

5 lbs. \$5.75 10 lbs. \$9.50 25 lbs. \$22.00 100 lbs. \$82.00

PARK BLEND MIXTURE

Recommended for large sunny areas. Contains Kentucky Blue Grass, Red Top, Creeping Red Fescue and some White Clover, all grasses which turf authorities claim thrive well in clayey soil. PARK BLEND will form a thick turf which leaves little room for weeds.

5 lbs. \$4.20 10 lbs. \$7.80 25 lbs. \$17.75 100 lbs. \$69.00

SUNNY SPECIAL MIXTURE

For quickest results when seeking new lawns. Contains some Rye Grass which grows rapidly and forms a protective base for the slower growing grasses. Once a lawn of SUNNY SPECIAL has been established it should be reseeded with either SUNNY BEST or PARK BLEND. You will then have as beautiful a lawn as can be grown.

5 lbs. \$3.75 10 lbs. \$6.50 25 lbs. \$14.50 100 lbs. \$54.00

SANDY BEST MIXTURE

A formula that has been tried and found to be ideal for sandy soil as well as partially shaded locations. Contains Kentucky Blue Grass, Creeping Red Fescue and Red Top but no White Clover. If, however, White Clover is desired we suggest that you add some to this mixture to suit your purposes.

5 lbs. \$4.75 10 lbs. \$7.80 25 lbs. \$17.75 100 lbs. \$69.00

HERBST BROTHERS, 92 WARREN ST., NEW YORK 7, N. Y.

LAWN GRASS SEED

FOR

SHADY AREAS

SHADY BEST MIXTURE

What SUNNY BEST does in sunny areas, SHADY BEST will do in heavily or partially shaded areas. Extreme care has been given this mixture and we offer here a formula containing Fescue which tests have proven is particularly well adapted for just such purposes. No White Clover.

5 lbs. \$5.00 10 lbs. \$9.25 25 lbs. \$21.00 100 lbs. \$78.00

SHADY SPECIAL MIXTURE

A favorite with landscape gardeners who like a general all purpose mixture. Kentucky Blue Grass, Red Top, Domestic and Perennial Rye Grass and White Clover blended in such a way as to form a mixture that will do well under any conditions. Recommended for cemeteries, parks, etc., where both sunny and shady spots occur. SHADY SPECIAL will make a tough but not coarse lawn and is most economical.

5 lbs. \$3.60 10 lbs. \$5.65 25 lbs. \$13.50 100 lbs. \$52.00

IMPORTANT TO CONTRACTORS AND LANDSCAPE GARDENERS

Let us worry about special formulas required by public authorities for grass seed to be used on public works. We will undertake to furnish just what is required at the right price.

OTHER GRASS & FIELD SEEDS UPON REQUEST

NEW WEED KILLER "DANDYKILL" FOR YOUR LAWN

This new 2, 4D miracle weed killer comes in dry form, contains a concentrated form of nitrogen, quickly soluble in water. Kills practically all weeds such as Dandelion, Crab grass seed, etc.

If used as directed it will not burn the grass leaves. The chemical nitrogen stimulates growth so grass spreads to spaces left by destroyed weed. Full directions with every package.

24 oz. enough for 10,000 sq. ft. \$3.00 Prepaid

6 lbs. enough for one acre \$10.00 Express collect

CONCENTRATED "DANDYKILL" FOR LARGE AREAS

Special concentrated form, 70 per cent 2, 4D, without nitrogen saves shipping costs.

10 lbs. 4 acres \$22.00, 50 lbs. 20 acres \$105.00 f.o.b. New York

LAWN CONDITIONER "PLANT PROD"

The economical and safe way to feed your lawn. A 15-30-15 water soluble fertilizer, easily absorbed into the soil. Does not lose its effectiveness while in the soil where it remains for a long period of time. 200-400 lbs. to the acre.

25 lbs. \$5.80, 50 lbs. \$10.00, 100 lbs. \$17.00 f.o.b. New York
